APIIT Sri Lanka: Frequently Asked Questions

Document Number: 08
Institution: Asia Pacific Institute of Information Technology (APIIT) Sri Lanka
Research Date: November 10, 2026
Description: A comprehensive RAG-optimized FAQ guide addressing prospective student queries regarding programmes, admissions, fees, careers, and campus life, accompanied by a verified source register.

1. Institutional Questions

What is APIIT Sri Lanka?

> APIIT Sri Lanka (Asia Pacific Institute of Information Technology) is a premier higher education institution in Sri Lanka with over 25 years of experience. It offers undergraduate and postgraduate programmes across Business, Computing, Law, Engineering, and Biomedical Science [APIIT-001].

Where is APIIT located? Which campuses are available?

> APIIT operates two main campuses. The primary campus is located in Colombo at Access Towers (Colombo 2). There is also a dedicated branch campus in Kandy (Peradeniya Road). Prospective students should confirm specific programme availability at the Kandy campus prior to applying [APIIT-004].

Which university awards APIIT degrees?

> The principal academic partner awarding the majority of undergraduate and postgraduate degrees is the University of Staffordshire in the UK. APIIT also partners with NCUK for foundation pathways and the Asian Institute of Technology (AIT) for specific postgraduate opportunities [APIIT-002].

2. Programme Questions

What computing degrees are available?

> APIIT offers several computing programmes including BSc (Hons) Computer Science, BEng (Hons) Software Engineering, BSc (Hons) Artificial Intelligence, BSc (Hons) Cyber Security, and BSc (Hons) Cloud and Network Computing [APIIT-004].

How long is the Computer Science degree?

> The standard BSc (Hons) Computer Science degree takes 4 years, which includes an optional up to 1-year industry placement in the third year. An accelerated 2-year route is available for high-achieving students, though it does not include the industry placement year [APIIT-001].

Does APIIT offer Artificial Intelligence?

> Yes, APIIT offers a BSc (Hons) Artificial Intelligence degree covering Data Analytics, Machine Learning, Computer Vision, and Natural Language Processing. It is currently listed as available at the Colombo campus [APIIT-002].

What business degrees are available?

> The Business faculty offers BSc (Hons) Business Management (with specializations in Innovation & Entrepreneurship, HRM, and Sustainability), BSc (Hons) International Business Management, BSc (Hons) Accounting and Finance, and BSc (Hons) Digital and Social Media Marketing [APIIT-007].

3. Admission Questions

What are the general entry requirements for undergraduate degrees?

> For the standard 3-year (or 4-year with placement) route, students require a minimum of 3 passes at GCE A/L (Sri Lankan) or 3 D passes (London A/L). An accelerated 2-year route is available for students with 3 C passes. All applicants must have a Credit pass in both English and Mathematics at the GCE O/L level [APIIT-012].

Can students apply after completing A/L examinations but before receiving results?

> Yes, students with pending A/L results can apply by submitting evidence of their examinations. APIIT may issue a conditional offer pending the release of final grades [APIIT-016].

Are foundation programmes available?

> Yes. Students who have completed GCE O/L with at least 5 passes (including credits in English and Mathematics) but do not meet A/L requirements can enroll in the APIIT Business Foundation, APIIT Computing Foundation, or the NCUK International Foundation Year [APIIT-014].

4. Financial Questions

How much does a degree cost?

> Exact monetary values for tuition, registration, and examination fees are **not publicly published** by APIIT Sri Lanka on their website. Prospective students must contact the APIIT Admissions Office directly to receive an official, up-to-date fee structure for their chosen intake [APIIT-015].

Are payment plans available?

> Yes, APIIT typically offers flexible instalment plans to assist students in managing educational costs, though the exact schedules must be negotiated and confirmed with the finance division upon enrollment [APIIT-015].

Are scholarships available?

> Specific percentage discounts and high-achiever scholarships are evaluated on a case-by-case basis depending on a student's academic transcripts (e.g., exceptional A/L results). Students are advised to submit their transcripts to Admissions for a personalized assessment [APIIT-015].

5. Career and Progression Questions

What career opportunities are available after a Computing degree?

> Graduates can pursue roles such as Software Engineer, Technical Lead, Data Analyst, Machine Learning Engineer, Cloud Architect, and Cybersecurity Consultant. The exact trajectory depends on the specific degree and specialization chosen [APIIT-019]. *Note: APIIT prepares students for these roles but does not guarantee employment.*

Can I continue to postgraduate studies at APIIT?

> Yes. APIIT offers internal progression to master's level studies, including the MSc Computer Science, MSc Software Engineering, MSc IT Management, and MSc Cyber Security, all awarded by Staffordshire University [APIIT-021].

6. Student Support Questions

Does APIIT provide internship assistance?

> Yes. Through the "APIIT Beyond" institutional pillar, APIIT facilitates industry networking and assists students in securing internships. Computing degrees formally include an optional 1-year industry placement to bridge theory and practice [APIIT-022].

What student facilities are provided?

> Students have access to modern computer laboratories, a comprehensive digital and physical library, and specialized research spaces like the Human Performance Lab. The "APIIT Life" pillar supports a vibrant campus life with clubs such as the Student Activity Council (SAC), Rotaract, and Toastmasters [APIIT-022].
